MAIL AND TELEPHONE ADDRESS: 550 FIRST AVENUE, NEW YORK, N.Y. 10016

June 16, 1982

Mr. Michael W. Kosakowski  
Acting Chief, Compliance Branch  
Office of Waste Programs Enforcement  
U.S. Environmental Protection Agency  
Washington, D.C. 20460

Dear Mr. Kosakowski:

I am writing in response to your letter of May 12 concerning the potential adverse effects of aromatic hydrocarbons on humans when ingested. I will be interested in participating in your efforts, and I am sending you a copy of my C.V. with this letter.

I regret the delay in my response which is due to travel abroad from which I have just returned.

Sincerely yours,

B. L. Van Duuren, Sc.D.  
Professor of Environmental Medicine

BLVD:ef  
Enc.

## BIOGRAPHICAL SKETCH

Benjamin L. Van Duuren, Professor of Environmental Medicine

Birthdate: May 5, 1927

Education: University of South Africa, Sc.D., 1951, Organic Chemistry

Research and Professional Experience: Post-Doctorate Research Fellow, University of Illinois, Urbana, Illinois, 1951-1953; Research Fellow, U.C.L.A., Los Angeles, California, 1953-1954; Research Chemist, E.I.duPont de Nemours, Buffalo, New York, 1954-1955; Instructor, Institute of Environmental Medicine, New York University Medical Center, 1955-1957; Assistant Professor, Institute of Environmental Medicine, New York University Medical Center, 1957-1962; Associate Professor, Institute of Environmental Medicine, New York University Medical Center, 1962-1969; Associate Professor, Director, Laboratory of Organic Chemistry and Carcinogenesis, Institute of Environmental Medicine, New York University Medical Center, 1965-present; Associate Director Institute of Environmental Medicine, New York University Medical Center, 1975-present; Professor of Environmental Medicine, Institute of Environmental Medicine, New York University Medical Center, 1969-present.

Research Interests: Chemical carcinogenesis: metabolism and mode of action of aliphatic, haloaliphatic, aromatic and heterocyclic carcinogens, alkylating agents and their structure-activity relationships; tumor-promoting agents of croton oil and mode of action *in vivo* and *in vitro* cell culture studies; tobacco carcinogenesis; inhibition of tumorigenesis by chemical agents, physical interaction of mutagens and carcinogens with nucleic acid; applications of spectroscopic methods in biology and medicine.

Committee Memberships and Other Activities: N.I.H. Grant Review Section, Pathology B., 1968-1972; Lung Cancer Task Force: Committee of a Less Harmful Cigarette, N.I.H., National Cancer Institute, 1968-1974; Working Group Member on "Evaluation of Carcinogenic Risks of Chemicals to Man." International Agency for Research on Cancer (WHO) Lyon, France, 1970; Member, Committee on Biological Effects of Air Pollutants, National Research Council, National Academy of Sciences, 1971-1975; Panel Chairman, Organic Air Contaminants, for Committee on Biological Effects of Air Pollutants, National Research Council, National Academy of Sciences, 1971-1975; Panel Member on "Assessment of Health Risk for Organics in Drinking Water" to the Science Advisory Board, Environmental Protection Agency, 1975; Member, Panel on Select Organic Compounds Hazardous to Health and Environment, National Science Foundation, 1974-1975; Member, Food Protection Committee (National Research Council), 1975-1978; Member, N.I.H. Grant Review Special Study Section (Path. B./AHR) 1975-1976; Member, Scientific Advisory Panel to Governor W.G. Milliken, State of Michigan, "Report on Polybrominated Biphenyls" 1976; Working Group Member on "Evaluation of Carcinogenic Risk of Chemicals to Man", International Agency for Research on Cancer (WHO) Lyon, France, 1976; Member, Editorial Advisory Board, Cancer Research, 1970-1977; Member, Editorial Board, Journal of Environmental Pathology and Toxicology, 1977-1980; Consultant, National Science Foundation, 1979-present; Consultant, Environmental Protection Agency, 1975-present.
